Additional notes:

- All dollar amounts above are in [US Dollars].
- Notional Net Profit** means the notional value that can be attributed to the representative value of the net positions of your Trades for each Trading Period.
- The **Profit Consistency Rule** IF applies to all trading activities during the Assessment Period and/or Trading Period. For the purposes of this Schedule. To satisfy the Consistency Rule: (a) if only Assessment Phase 1 (Evaluation) applies then no single trade can account for 25% or more of your total Required Return or total Target Return; or (b) if both Assessment Phase 1 (Evaluation) and Assessment Phase 2 (Verification) applies then no single trade can account for 50% or more of your total Required Return or total Target Return.
- The **Lot Size Consistency Rule** IF applies to all trading activities during the Assessment Period and/or Trading Period. For the purposes of this Schedule. To satisfy the Lot Size Consistency Rule your average trade size is used to calculate your trading range. The range is determined by adding 100% to your average trade size to determine the maximum value and subtracting 75% to determine the minimum gridvalue. Note trades are aggregated when placed within a 30-second window into one position for both profit and volume consistency.

5. The Assessment Period and Assessment Criteria may comprise either 1 or 2 parts. If it comprises 1 part, then you must satisfy the stated Assessment Criteria within the stated Assessment Period. If it comprises 2 parts, then you must satisfy the requirements of Phase 1 (Evaluation) to be eligible to proceed to Funded stage to satisfy the Assessment Criteria for your selected Assessment Program.
6. Hedging Between Accounts Definition: Using 2 different trading accounts to open opposing trades on the same instruments with the same lot size at the same time or holding any equal and opposite position to profit on one account at the expense of the other.
7. Rules for withdrawals: The first withdrawal can only be requested after 30 days of being a live-funded trader. Following the first withdrawal, subsequent withdrawals can be requested after another 15 days.
8. No and Yes: No means that the feature is not allowed under any circumstances. Yes, means that the feature is allowed, subject to certain conditions.
9. The 5% profit cap limits the trader's payout to no more than 5% of the account balance for the first 3 payouts.
10. You must be old enough (18) to trade and be able to verify your identity with KYC documents
11. Grid Trading Definition: Establishing multiple buy and sell orders, typically at equal intervals or "grid gaps" above and below the current market price. These orders are referred to as "grid levels." When the market price reaches a grid level, the corresponding buy or sell order is executed. The trader maintains these grid levels regardless of the direction of the market, aiming to profit from the price oscillations within the defined range.
12. We allow the use of EAs and indicators including risk manager tools. However, certain strategies are strictly prohibited in the funded stage:
 - Account Management
 - High-frequency trading (manually or using a bot)
 - Hedge arbitrage trading
 - Tick scalping
 - Grid Trading
 - One-sided betting
 - Scalping
 - Latency arbitrage trading
 - Reverse arbitrage trading
 - Copying trades from other traders
 - Martingale
